DETAILED ACTION

In response to the communication filed on November 16, 2003, claims 1-11 are active in this application.

Reasons For Allowance

1. Claims 1-11 are allowable over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teach nor make obvious the claimed limitation of the instant application as a whole as recited in claim 1. In particular, the prior art does not teach or suggest the particular subset of the process steps for forming a trench capacitor, which includes forming a pair of symmetric spacers on sidewall of the deep trench above the second conductive layer in a first direction and exposing a silicon sidewall of the deep trench above the second conductive layer in a second direction, wherein the first direction is substantially orthogonal to the second direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
